☐ Pain
☐ Pressure feeling
☐ Foreign body sensation
☐ Dry/sandy feeling
☐ Some redness
☐ Extreme redness
☐ Burning
☐ Itching
☐ Eyelid swollen
☐ Eyelid droopy
☐ Eyelid crusty
☐ Watery eye
☐ Lids stuck together upon awakening
☐ Increased light sensitivity
☐ Mucous discharge
☐ Eyelid twitching

Onset?
☐ Today
☐ Yesterday
☐ Mornings
☐ Evenings
☐ As the day wears on
☐ Recently (last 7 days)
☐ Increased over time

Duration?
☐ One time only
☐ Comes and goes
☐ Persistent
☐ Seasonal

Severity?
☐ Mild
☐ Bothersome
☐ Very bothersome
☐ Lessening
☐ Stays the same
☐ Worsening

Context?
☐ No known cause
☐ Worse in right eye
☐ Worse in left eye
☐ Both eyes affected
☐ Post-trauma
Please Explain:_____
_____
_____

Eye Medications/Treatments
(Used recently, including over-the-counter)
_____
_____
_____

Have you seen another provider for this eye health condition?
☐ No ☐ Yes **If yes, please explain.**
_____
_____
_____

What pharmacy do you prefer?
Please list the cross streets.
_____
_____

Family History: ☐ Diabetes ☐ High Blood Pressure ☐ Heart Problems ☐ Cancer

Please specify whom_____

Family Eye History: ☐ Cataracts ☐ Glaucoma ☐ Retinal Detachment ☐ Macular Degeneration ☐ Eye Surgery ☐ Lazy Eye ☐ Other

Please specify whom_____

Optomap Wide-field "Manaco" Retinal Imaging and Tomography

We use the industries best and newest "Optos Monaco" to help evaluate your retinal health. This is the most important part of everyone's annual eye exam and will be performed at least yearly on all of our patients to help give the very best exam possible. Patients age 60 and older will also receive an OCT (topomraphy) screening which further assists in analyzing each individual layer of the retina and macula. The Optos Monaco screening is $39.

For Contact Lens Wearers *Annual Contact Lens Evaluation and Fitting*

Contact lens patients require additional testing and monitoring over and above what is done during a routine eye exam. Contact lenses are medical devices and even though they may feel fine, there are health risks that must be taken seriously. In order to renew your contact lens prescription, your doctor performs the following tests on a yearly basis. These procedures are not part of a standard eye exam.

- Slit lamp microscope examination of the contact lens on the eye to check the lens fit.
- Slit lamp microscope examination of the cornea, conjunctiva and eyelid tissues, to check the eye health and to look for adverse effects from contact lens wear.
- Contact lens refraction to determine the correct contact lens prescription power (contact lens prescriptions are different than eyeglass prescriptions).
- We also review new lens designs, materials and cleaning solutions that may improve comfort and/or health.

If you have never worn contact lenses, there is an additional training fee of $35. Contact lens fittings start at $60.

For Contact Lens Wearers…

I acknowledge that I am responsible for paying for the contact lens fitting and per new FTC guidelines, I am also acknowledging that I received a copy of my contact lens prescription at the completion of the contact lens fitting and prescribing process.
If you need printed copies of your prescription, we can also fax or mail them to you at your request.
